PRE-ENTRY & TIRE INFORMATION | September 14, 2026

Pre-entry for The Maxxis National Championships XX opens September 14.

All divisions must purchase either one or two dog-leg sets of Maxxis HT3 tires when pre-entering their classes. You will be invoiced separately by Goldspeed USA for the tires.

TIRE SHIPPING - Tires purchased by pre-registered drivers will be scanned and shipped September 30-October 1st. We will do our best to ensure that all drivers receive their tires on or about the same day. Tire invoice must be paid by the end of day September 25.

Drivers who register **after** September 30 will have their tires shipped as soon as the invoice for the tires is paid.

Pre-entry closes October 5 at 12:00 p.m. EST. No tires will be shipped after this deadline, helping ensure that all shipments arrive before the event.

TIRE RULES - The sets purchased during pre-entry will be the only tires permitted in your division. You may do anything you choose to your purchased sets, with the exception of any outside manipulation to the tire (prepping is okay). You will be required to check in your tires for inspection BEFORE practice. Friday night times will be determined at a later date. No other tires will be permitted in these divisions for qualifying and main events.

Tires may be shipped directly to you or to your tire specialist. Please ensure you supply the correct address to send the tires to if different from the address used when registering. Once the tires have shipped, you are responsible for tracking and maintaining possession of them.

A limited number of tires will be available at the track for drivers who do not pre-register. These tires will be sold on a first-come, first-served basis. There will be no holds, and once they are gone, they are gone.

IMPORTANT: Rookie drivers should bring their own tires and enter the event as usual.

RESERVED PARKING | September 21, 2026
